

Split in Multiple Workbook – Readme

Bot Overview

This bot performs the following:

- Extract data from excel input file and create multiple Workbook with agent name and fill the data as per agent wise. Macro file did the entire job and its work dynamically. The output workbook will be saved in output folder as **AgentName.xlsx**. This process runs on stealth mode.

Prerequisites

- Automation Anywhere Enterprise v11.x
- MS Office Excel 2003 or higher

Installation

- Download the bot from Bot Store.
- Double click on the .msi file.
- On Welcome to Installation wizard, click Next to continue.
- Click I agree to the terms in the license agreement radio button to accept the agreement.
- Get/Copy the License key from Bot Store Downloads into License Key, click Next to continue.
- Click Install to begin the installation.
- Click Finish to complete the installation.
- To view the installation, go to 'My Tasks' folder on AAE Client to see bot files.

Uninstall

- Open Add/Remove Programs -> Select the Bot/Digital Worker to be installed
- Click uninstall

Creates the following folder structure of the content in the AA Dir:

```
<AA Directory>
  o My Tasks
    ■ Bot Store
      • Read Content-AA (Folder)
        o My Tasks
          ■ Split in Multiple Workbook.atmx
        o Error Folder
          ■ Logs (Folder)
            • Error Logs Month-Day-Year.txt
          ■ Snapshots (Folder)
            • Error Snap Month-Day-Year.png
```

How to Use the Bot:

Use the following information to configure your bot:

Parameter Name	Type	Direction	Additional Info
vPath	String	Input	Dynamic path of the bot
vLogFolder	String	Input	Log folder to see the error description
vWkbPth	String	Input	To get Dynamic path to save the workbooks.
vSnapshotfolder	String	Input	Snapshot folder to get the capture images of an error.
vErrorFolder	String	Input	User to get error description and snapshot.

Error Handling

- Each Bot folder contains the below hierarchy.
 - o Error Folder
 - Logs
 - Error Logs Month-Day-Year.txt: In case of any error, this file logs error message along with time stamp
 - Snapshots
 - Error Snap Month-Day-Year.png: In case of any error, this file captures screenshot of error.
- Task Status of bot is set to failed in case of errors.
