Code Review Bot

Bot Overview

This bot performs the following:

This bot is extended version of AA Code review bot which analyses AA code and compares with a
set of pre-defined standard coding procedures and gives an output with the criticality of each line
of code to ensure that the code tunes fine with all controls that are required for the bot
deployment & execution.

Pre-Requisites

• - Automation Anywhere Enterprise v11 and higher.

Installation

- Download the bot from Bot Store.
- Double click on the .msi file.
