

Create Dashboard in Splunk– Readme

Bot Overview

This bot performs the following:

- This Bot Will Create the Dashboard in Splunk Based on Input Data.
- Based on the XML File (Source Code of Dashboard) from the user the dashboard will be created.

Prerequisites

- Automation Anywhere Enterprise v11.3.x
- Splunk Software version 8.0
- Access Database Engine 2016(32bit) Need to be installed.

Installation

- Download the bot from Bot Store.
- Double click on the .msi file.
- On Welcome to Installation wizard, click Next to continue.
- Click I agree to the terms in the license agreement radio button to accept the agreement.
- Get/Copy the License key from Bot Store Downloads into License Key, click Next to continue.
- Click Install to begin the installation.
- Click Finish to complete the installation.
- To view the installation, go to 'My Tasks' folder on AAE Client to see bot files.

Uninstall

- Open Add/Remove Programs -> Select the Bot/Digital Worker to be installed
- Click uninstall

Creates the following folder structure of the content in the AA Dir:

- <AA Directory>
 - My Tasks
