1. Introduction

This document contains all essential information for the user to make full use of this A2019 Bot. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the Bot.

1.1 Overview

The end user will be prompted to

1. Enter the PAN number
2. Enter Full name
3. Enter DOB
4. Enter CAPTCHA code
5. Click on Submit

Scenarios handled are as below –

- A. If all input data is valid then message displayed is ‘PAN is active and the details are matching with PAN Database’.
- B. If the Name mismatches and other inputs are valid then message displayed is ‘PAN is active but the details are not matching with PAN Database’
- C. If the entered PAN number is incorrect, end user need to provide correct PAN number again.
- D. If the DOB is incorrect, the error message is displayed saying ‘No record found for this given PAN, DOB is incorrect’.
- E. If the CAPTCHA entered is incorrect, a message is displayed as ‘Invalid code. Please enter the code as appearing in the image’.

1.2 Common Use cases

The key use cases for this bot include:

- Enter the correct PAN number
- Enter Full name
- Enter DOB
- Enter CAPTCHA code
- Click on Submit

2. Requirements & Prerequisites

2.1 System Requirements

Below are the minimum system requirements for running bots as an Enterprise A2019 (Cloud deployed) or Community Edition user on your local machine.

Hardware Requirements

Device	Processor	RAM	Storage (Free Space)	Network
Machine	Intel Core i5 2.6 GHz	4 GB minimum 8 GB recommended	32 GB	1 GbE
Bot Creator and Bot Runner	No additions to the machine requirements	No additions to the machine requirements	Add 100 through 150 KB per Automation Anywhere script Add 40 through 50 GB per long-term project	No additions to the machine requirements

Browser Requirements

The user interface for Automation Anywhere Enterprise is through a browser. Login to your device then login to Enterprise Control Room through a browser.

Browser	Browser Version	Automation Anywhere plug-in version ²	Supported bot functions by Bot agent version		
Google Chrome ¹	57 or later	11 or 12	2.0.2	1.0.2	1.0.1
Microsoft Internet Explorer	11	N/A	None	Debugger only	All except Credential Vault

(1) Google Chrome re-verification

CAUTION: Google Chrome requires re-verification of permissions when the Automation Anywhere Google Chrome extension (Version 11.3.3 or later) is updated. If prompted, click **Enable** this item in the Google Chrome message. Alternatively, re-enable the extension through [chrome web store](#). Similarly, if you are deploying your Bot Runners from a master image, accept the permission from within that image.

(2) Google Chrome plug-in versions

A2019 supports Chrome plug-in version 11. If you have other versions installed, you might not be able to record tasks using the Record feature or Capture action. To resolve this issue, do the following:

1. Rename the automation.chrome.agent registry key to automation.chrome.agent.old. The registry key is available at: Computer\HKEY_CURRENT_USER\Software\Google\Chrome\NativeMessagingHosts
2. Disable all other Google Chrome plug-in versions you have installed, except for version 11.

2.2 Prerequisites

Following information is required to verify / validate PAN:

- ✓ PAN Number same as in PAN card
- ✓ Full name as per the PAN
- ✓ Date of Birth in DD/MM/YYYY format

3. Getting Started

3.1 Quick Start

3.1.1 Setup

The bot will install in the Bot Store -Automation Anywhere sub directory. The bot doesn't require a specific setup beyond the configuration items mentioned below.

3.1.2 Configuration

No any configuration required.

4. Troubleshooting & Support

4.1 Support

Free bots are not officially supported. You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on APeople – the Bot Building Forum, the Bot Store Support Forum, or the Developers Everywhere Group.
- Automation Anywhere also provides a Product Documentation portal which can be accessed for more information about our products and guidance on Enterprise A2019.

4.2 FAQs

Q: Can I make changes to this bot?

Ans : Absolutely. Free bots are for you to make use of, customize, and/or include in your builds as you see fit.

Q: Can I upgrade the packages for this bot?

Ans : Yes – but know that the bot was created/tested on a specific package version. Any modifications to that may result in unexpected outcomes – so make sure to test the bot/subtask after making any package version modifications.

For questions relating to Enterprise A2019: See the [Enterprise A2019 FAQs](#).

Appendix A: Record of Changes

No.	Version Number	Date of Change	Author	Notes
1	1.0.0.0	30 Nov 2020	Rahul Nikam from PARASAIL Team	Using Automation Anywhere Enterprise A2019.16 (Build 6463)
