Table of Contents

1. Introduction

This document contains all essential information for the user to make full use of this *A2019 – Create Worksheets as New Excel.* It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the *A2019 – Create Worksheets as New Excel.*

1.1 Overview

This Automation bot will take an input from the user via configuration file and read the input excel files from the folder.

After Reading the name of excel files bot will open every excel in the folder and create a New Excel file for each of its worksheet.

Automation will save the created Excel files to the output path which is supplied by the user in the configuration file.

Bot is saving the Excel file with the worksheet name.

➜ Sample Input of Excel File: D:\My Desktop\BOT STORE\Input\File1.xlsx

If File1.xlsx have a worksheet called "**MoneyMarket**" then, output of the automation is below:

➜ Sample Output: D:\My Desktop\BOT STORE\Input\MoneyMarket.xlsx

1.2 Use cases

The key use cases include:

1: If user have a excel file with multiple worksheets and if he/she want to create a new excel of the same name worksheet then this bot will create the worksheets as a separate excel file.

2: If large export company receive a excel file which contains different kinds of data in different worksheets. Now if that company need to work with only one worksheet then this automation will reduce the manual work effort by exporting it to separate excel file and increase the work efficiency.

2.   Requirements & Prerequisites

2.1   System Requirements

Enterprise A2019 (Cloud deployed) and Community Edition device requirements.
Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A2019 (Cloud deployed) or Community Edition user on your local machine.

2.2   Prerequisites

User should have a **A2019** installed to take a benefit of this automation.

3. Getting Started
