1. Introduction

This document contains all essential information for the user to make full use of this A360 IP Utility Package. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration.

1.1 Overview

This package enables a bot to easily obtain and leverage the public IP address of a bot runner device as well as return the location details for any input IP address.

A typical use of this package would be to have a bot self-report its IP address for security purposes, as well as provide the machine's current location details.

1.2 Use cases

The key use cases include:

- Automate bot runner's self-reporting of IP address and location

2. Requirements & Prerequisites

2.1 System Requirements

[Enterprise A360 \(Cloud deployed\) and Community Edition device requirements.](#)

Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A2019 (Cloud deployed) or Community Edition user on your local machine.

2.2 Prerequisites

No additional pre-requisites needed.

3. Getting Started

3.1 Quick Start

3.1.1 Setup

Once your API key and token have been retrieved, you are all set! You can use those credentials in the “Start Session” action within the Trello Package to authenticate and subsequently execute any other action in the package.

3.1.2 Configuration and Use

This package contains the following actions:

IP Utility

IP Location

Public IP Address

Action	Description	Parameters	
IP Address	Returns the public IP address of the device running the bot	IP Address	Output the runner's public IP address to a string variable
IP Location	Returns a dictionary of location details for an input IP address	IP Address	Input IP address
		Location Details	Output location details in a dictionary variables with the following keys: city, region, region_code, country, latitude, longitude, timezone

4. Support & FAQs

4.1 Support

Free bots are not officially supported. You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on [APeople](#) – the [Bot Building Forum](#), the [Bot Store Support Forum](#), or the [Developers Everywhere Group](#).
- Automation Anywhere also provides a [Product Documentation portal](#) which can be accessed for more information about our products and guidance on [Enterprise A360](#).

4.2 FAQs

For questions relating to Enterprise A2019: See the [Enterprise A360 FAQs](#).
