1. Introduction

This document contains all essential information for the user to make full use of this Excel to CSV Package. It includes a description of the functions and capabilities and step-by-step Procedures for setup & configuration of the Package. This package is used to convert the Excel files From an Input folder into CSV files at Output folder.

1.1 Overview

- Excel to CSV Action used for converting the Excel files into CSV format.
- Platform used – IntelliJ IDEA
- Java Language is used to build the code

Steps

1 action is used in this Package:

- Converts Input Excel file to Output CSV file
- Reads a Excel file from the folder and converts as CSV file into the output folder

1.2 Use cases

The key use cases include:

- 1 Converting Excel data in a file into CSV format with a same file name
- 2 Easy to convert files for Users
- 3 Time Saver
- 4 Fast and efficient

2 Requirements & Pre-requisites

2.1 System Requirements

A360 (Cloud deployed) and Community Edition device requirements.

Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an A360 (Cloud deployed) or Community Edition user on your local machine.

2.2 Prerequisites

1. IntelliJ IDEA
2. Automation 360 installed.
3. Java 11
4. Input folder contains .xlsx files

3 Getting Started

3.1 Quick Start

3.1.1 Configuration and Use

- User specified input
- Output – variable

INPUT VARIABLES: Input Variables to be mentioned in this Table.

- TO CONNECT

Variable Name	Type	Mandatory	Purpose	Direction	Additional Info
vInputFilePath	String	Yes	Input file	Input	Mandatory – Contains input file

OUPTUT VARIABLES: Input Variables to be mentioned in this Table.

Variable Name	Type	Mandatory	Purpose	Direction	Additional Info
vOutputFilePath	String	Yes	Output file	Output	Mandatory – output file path to be saved

4 Support & FAQs

4.1 Support

Free bots and packages are not officially supported. You can get access to Community Support through the following channels:

4.1.1 You can get access to Community Support, connecting with other Automation Anywhere customers and developers on [APeople](#) – the [Bot Building Forum](#), the [Bot Store Support Forum](#), or the [Developers Everywhere Group](#).

4.1.2 Automation Anywhere also provides a [Product Documentation portal](#) which can be accessed for more information about our products and guidance on [Enterprise A360](#).

4.2 FAQs

For questions relating to Enterprise A360: See the [Enterprise A360 FAQs](#).

For questions relating to Enterprise A360: See the [Enterprise A360 FAQs](#).

Appendix A: Record of Changes

No.	Version Number	Date of Change	Author	Notes
1.	1.0	22/July/2021	Shaima.m	Release Version
