 - My Tasks
 - DeleteFiles.atmx
 - KillApplications.atmx
 - MoveFiles_SourceToDest.atmx
 - ReadConfig.atmx
 - Main.atmx
 - Work Files
 - Source

- Destination

How to use the bot:

Use the following information to configure your bot:

Parameter Name	Type	Additional Info.
Source_Folder	String	Provide the folder path from which the file needs to be moved
Destination_Folder	String	Provide the folder path to which the file needs to be moved
BackupFiles_In_Days	Int	Provide the number of days the file needs to be backup. It should be a negative number. E.g. (-7)
File_Types_Allowed	String	Provide the type of file to be backup. E.g. (.xlsx, .txt)

Error Handling:

The bot folder contains the folder named 'Error Folder':

- Logs_MonthDayYear.txt: This file logs each step performed by the bot. In case of error, this file logs error message along with the timestamp.
- Task status of bot is set to failed in case of error.
