## 1. Introduction

---

This document contains all essential information for the user to make full use of this A2019 [Text to Clipboard](#). It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the [Text to Clipboard](#).

### 1.1 Overview

The bot, Text to Clipboard, is designed to read a .txt file and save the content into the clipboard.

- You must input the path of the file in “sInputPath” an input variable.

### 1.2 Use cases

The key use cases include:

- Greet tool for moving information from .txt files to another destination.
- Time Saver.
- Easy to use.

## 2. Requirements & Prerequisites

---

### 2.1 System Requirements

#### Enterprise A2019 (Cloud deployed) and Community Edition device requirements.

Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A2019 (Cloud deployed) or Community Edition user on your local machine.

### 2.2 Prerequisites

- Automation 360 setup to run in your machine.
- Bot Creator license.
- Python 3.x ([Download Python | Python.org](#))
  - Don't forget to add python to environment variables on advance options while doing the installation.

## 3. Getting Started

### 3.1 Quick Start

#### 3.1.1 Setup

No external setup is need it.

#### 3.1.2 Configuration and Use

##### For Bots:

You have to use a Run BOT command and specify the input values.

<i>INPUT VARIABLES: Input Variables to be mentioned in this Table</i>				
<i>Variable Name</i>	<i>Type</i>	<i>Mandatory</i>	<i>Purpose</i>	<i>Example Input</i>
<b>sInputPath</b>	String	Yes	This string must contain the path of the .txt file you want to save to the clipboard.	"C:\Users\username\Desktop\test.txt"

## 4. Support & FAQs

---

### 4.1 Support

Free bots are not officially supported. You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on [APeople](#) – the [Bot Building Forum](#), the [Bot Store Support Forum](#), or the [Developers Everywhere Group](#).
- Automation Anywhere also provides a [Product Documentation portal](#) which can be accessed for more information about our products and guidance on [Enterprise A2019](#).

### 4.2 FAQs

#### Does it need python to work?

Yes, It does need python 3.0 or above. You can download python on ([Download Python | Python.org](#))

- Don't forget to add python to environment variables on advance options.

For questions relating to Enterprise A2019: See the [Enterprise A2019 FAQs](#).
