Enterprise A2019

21/11/2021

Table of Contents

1.   Introduction

This document contains all essential information for the user to make full use of this A2019 *(Bot/Command Package)*. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the *(Bot/Command Package)*.

1.1   Overview

This bot gets any date of the day in the previous week by the name of the day in any format.

1.2   Use cases

The key use cases include:

- This bot gets any date of the day in the previous week by the name of the day in any format.

2.   Requirements & Prerequisites

2.1   System Requirements

Enterprise A2019 (Cloud deployed) and Community Edition device requirements.
Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A2019 (Cloud deployed) or Community Edition user on your local machine.

2.2   Prerequisites

Instructions: Provide software prerequisites along with version needed for Bot or Command Package usage. This include if you need to have accounts set up with third party SaaS systems like Salesforce, Slack, Workday, etc.

3.   Getting Started

3.1   Quick Start

3.1.1   Setup

Instructions: Provide a step by step guide for setting up external accesses required for using the Bot or Command Package. This could include, for example, details on how to generate an API Key/Token as well as the actions a user must take to setup and access an external SaaS application required as a part of the process.

3.1.2   Configuration and Use

For Command Packages:

Provide any details, if needed, around configuring Command Packages for use.   Explain how to use each of the Commands in your Command Package.

Your command package needs to ship with a bot that illustrates how the Command Package can be used. Provide step-by-step instructions for how to use that Bot so that your customer can see how to use the Command Package.

For Bots:

Provide a step by step guide for configuration of parameters from either an external file (text) or from the Credential Vault for sensitive parameters for Bots. If applicable, include how to create Locker & credential attributes in credential vault.

Provide configurable variable list with the details as mentioned in the example

o   *For Credential Vault –*

   Describe the setting up of the Locker and Credentials and describe the individual properties in a table format as below

Locker Name	Credentials Name	Attribute Name	Value
Locker_Slack	*Credential_Slack*	*URL*	*URL of the slack account*

o   *For Configuring the Bot –*

INPUT VARIABLES: Input Variables to be mentioned in this Table				
Variable Name	Type	Mandatory	Purpose	Example Input
vNameOfDay	string	yes	This Variable Contains the name of day of week	Sunday
vDateFormat	string	yes	This variable contains the date format	dd-MM-yyyy
vDic	Dictionary	yes	This Variable that Dll Function will read from it. vDic **contains Keys:** nameOfDay type string dateFormat type string	vDic (nameOfDay): Sunday vDic (dateFormat): dd-MM-yyyy

OUTPUT VARIABLES: Output Variables to be mentioned in this Table.				
Variable Name	Type	Mandatory	Purpose	Example Output
vOutput	string	yes	This Variable Contains the result	E.g: 11-11-2021

. Explain how a customer can use the bot once it's configured – walk through examples.

4. Support & FAQs

4.1 Support

Free bots are not officially supported.   You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on APeople – the Bot Building Forum, the Bot Store Support Forum, or the Developers Everywhere Group.
- Automation Anywhere also provides a Product Documentation portal which can be accessed for more information about our products and guidance on Enterprise A2019.

4.2 FAQs

Instructions: Add any Frequently Asked Questions related to Bot that you think would be helpful to the customer

For questions relating to Enterprise A2019: See the Enterprise A2019 FAQs.

Appendix A: Record of Changes

Instructions: Provide information on the version number, the date of the version, the author/owner of the version, and a brief description of the reason for creating the revised version.

No.	Version Number	Date of Change	Author	Notes
1	*A2019*	*21/11/2021*	*Megoo Soft*	*This bot gets any date of the day in the previous week by the name of the day in any format*
