1. Introduction

This document contains all essential information for the user to make full use of 'Customer Support - Ticket Processing' process template. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the task bot template.

1.1 Overview

This template lets you build you an end to end process automation to efficiently process the customer support tickets/cases.

1.2 Use cases

The key use cases include:

- A workflow using Generative AI to categorize support cases as well as look up recommended knowledge base articles for resolution.
- Forms tasks allow agents to manually enter details as required.

2. Requirements & Prerequisites

2.1 System Requirements

[Enterprise A360 \(Cloud deployed\) and Community Edition device requirements.](#)

Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A360 (Cloud deployed) or Community Edition user on your local machine.

2.2 Prerequisites

- Ensure you have access to the packages used in the task bots.
- Permission and subscription to call the Generative AI actions.
- Access to the CRM application
- Access to the Knowledge Base

3. Getting Started

3.1 Quick Start

3.1.1 Setup

- No setup required.

3.1.2 Configuration and Use

1. After creating the process automation using the template, make a copy of the dependent automations such as task bots and forms to the folder where the process is created.
2. Remap the automations in each node in the process.
3. Edit and update each task bot according to the CRM application, Generative AI connection, KB that you plan to use.

4. Support & FAQs

4.1 Support

Free bots are not officially supported. You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on [APeople](#) – the [Bot Building Forum](#), the [Bot Store Support Forum](#), or the [Developers Everywhere Group](#).
- Automation Anywhere also provides a [Product Documentation portal](#) which can be accessed for more information about our products and guidance on [Enterprise A2019](#).

4.2 FAQs

For questions relating to Templates refer to [Automation Templates](#)

For questions relating to Enterprise A360: See the [Enterprise A360 FAQs](#)

Appendix A: Record of Changes

No.	Version Number	Date of Change	Author	Notes
