## **1. Introduction**

---

This document contains all essential information for the user to make full use of 'Warehouse Goods Receipt' process template. It includes a description of the functions and capabilities and step-by-step procedures for setup & configuration of the template.

### **1.1 Overview**

This template lets you build an end-to-end process automation by utilizing Document Automation to digitize and extract data across Bill of Lading documents. That data can be compared to Purchase Order details from SAP ERP system and routed to approver to handle over/under shipped items.

### **1.2 Use cases**

The key use cases include:

- Extract data from Bills of Lading document
- Compare it to the purchase order details from SAP ERP
- Send the details for approval in case of over or under shipped items.

---

## 2. Requirements & Prerequisites

---

### 2.1 System Requirements

#### [Enterprise A360 \(Cloud deployed\) and Community Edition device requirements.](#)

Review the machine hardware specifications, operating system versions, and browser types supported by Automation Anywhere Enterprise for creating and running bots and command packages as an Enterprise A360 (Cloud deployed) or Community Edition user on your local machine.

### 2.2 Prerequisites

- Ensure you have access to the packages used in the task bots and API tasks.
- Permission and access to Document Extraction capabilities.

## **3. Getting Started**

---

### **3.1 Quick Start**

#### **3.1.1 Setup**

- No setup required.

#### **3.1.2 Configuration and Use**

1. After creating the process automation using the template, make a copy of the dependent automations such as task bots and forms to the folder where the process is created.
2. Remap the automations in each node in the process.
3. Edit and update each task bot according to the applications accessed, document extraction details, any other automation asset that you plan to use.

## 4. Support & FAQs

---

### 4.1 Support

Free bots are not officially supported. You can get access to Community Support through the following channels:

- You can get access to Community Support, connecting with other Automation Anywhere customers and developers on [APeople](#) – the [Bot Building Forum](#), the [Bot Store Support Forum](#), or the [Developers Everywhere Group](#).
- Automation Anywhere also provides a [Product Documentation portal](#) which can be accessed for more information about our products and guidance on [Enterprise A2019](#).

### 4.2 FAQs

For questions relating to Templates refer to [Automation Templates](#)

For questions relating to Enterprise A360: See the [Enterprise A360 FAQs](#)
